THE TAXABLE TO THE TA MINING, BUSINESS AND STOCKS.

on a Large Group.

His Fird Developing Into a Big

Thing-Conditions on 1600 Level

Options have been secured by Denver

parties on a group of ten claims in

Alta during the past week. Such was

the information given out today by W.

H. Child. The option includes the

Darlington and Harkness claims in ad-

dition to the two claims of the Grizzly

company, and the controlling interest in

the Regulator group. The bond calls for

the payment of \$125,000, \$30,000 of which

becomes due in thirty days. Some

very good ore is in sight in the Darling-

ton claim as well as in the Grizzly property. The property embraces an

OSBORN'S GOOD LUCK.

Is Sacking High Grade Gold Ore

from Near the Annie Laurie.

J. Rogers is up from the southern

country, where he has been looking over

the various mining camps. He is especially delighted with what he saw in

the Marysvale country. The Golden Star and Annie Laurie will prove to be the biggest bonanzas in the State in Mr. Rogers' opinion. For rich ore, however, it would seem that Jesse Os-

owever, it would seem that Jesse Os-orn must take rank with the most ortunate ones in the district. The trike recorded a few weeks ago ap-ears to be holding out. A shaft has een sunk about 25 feet from the sur-ace, and a nice body of high grade old ore has been disclosed for all that istance. Two assays Mr. Rogers saw bowed \$234 and \$236 in gold. The ore

howed \$384 and \$296 in gold. The ore sound in what appears to be an iron low-out. If it holds out to any depth will make a big fortune for its owner.

As it is, Mr. Osborn is said to be sack-

ng ore, and a carload of the rich stuff s promised before the end of the month.

he new find has directed the attention prospectors to that vicinity, which about three miles in an airline from

Samuel McIntyre Jr., who is in charge

New Ore on 1600 Level.

Mr. McIntyre reports that the new ore discovery on the 1,600 level east of the old workings is looking well. An incline is down about 80 feet in milling

ore. At the same time the management is running for the same ore body on the 1,700 level and it appears that it is close at hand as iron and quartz are entering the face of the duift. Things are said to be looking well on the 600 level where a stringer of ore is being followed south from the ground in dis-

EASE AND DISEASE.

A Short Lesson on the Meaning of a Familiar Word.

Disease is the opposite of ease. Webster defines disease as "lack of ease, uneasiness, trouble, vexation, disquiet." It is a condition due to some derangement of the physical organism. A vast majority of the "dis-ease" from which people suffer is due to impure blood. Disease of this kind is cured by Hood's Sarsaparilla which purifies, enriches and vitalizes the blood. Hood's Sarpimples and all eruptions. It

the stomach and creates a good appetite, and it gives vigor and vitality to the whole body. It reverses the condition of things, giving health, comfort and "case" in place of "disease." & Lark appears to be off, as there is now reported a movement on foot to TABLER'S BUCKEYE PILE OINT-

amend articles of incorporation of com-pany so that it can sell any part or all of its holdings. A meeting of stock-holders is called for the 17th.

Three carloads of good-grade lead were on the market Wednesday from the new strike below 100-level of the Monteguma. The ore body from which it came is believed to extend from incline to a wive sure leaf string. MENT is not a panacea, but is recom-mended for blind, bleeding or protruding piles, and it will cure the most obstinate cases. Price, 50 cents in bot-tles. Tubes, 75 cents. Z. C. M. I. Drug incline to a winze sunk last spring, Cathartic. All druggists, 10c, 25c, 50c.

Besides the above the Eureka-Hill mills sent out six carloads of concentrates and the Mammoth mill shipped one bar of bullion. Among the mines which are loading shipments of ore are included the Yankee Cons., Carissa and Star Consolidated.

At the Ensign Group.

Lewis Levine, of the Boston firm of Pratt & Levine, and Milando Pratt of Salt Lake City were arrivals in camp yesterday and will visit a number of mining properties including Ensign group of claims at head of Markham, in which they are largely interested, says the Bingham Bulletin.

The Ensign is in a good locality and has a strong and promising yell in

has a strong and promising vein in which a streak of marketable ore was encountered near surface. Last fall sinking was begun but at 150 feet water shut off farther progress and has risen in shaft to within 80 feet of surface. A tunnel which will be 650 feet in length has been run about 250 feet and will tap vein below shaft at 260 feet depth. The company is confident from upper indications that tunnel will go into a fine ore body and that the Ensign has the making of a mine with moderate

The Midland Strike.

After running about 1,000 feet the Midland tunnel about a week ago went into a new ore body that is without doubt important as there is now showing 2½ feet of mineral assaying as high as 100 ounces silver and 3.9 ounces gold per ton, while the whole tunnel face is

in good ore. This ore is an entirely new feature of the locality, carrying as it does up-wardsof \$80 in gold. It came in some-what unexpectedly as the tunnel (on vein) is driving to go under stopes of the old Damphool claim, having still samuel McIntyre Jr., who is in charge of the Mammoth mill, is in the city for a few days, and reports a high tonnage milled during August, when the amount put through footed up to 4,000 tons. During recent months the tonnage has not exceeded 3,600 tons. As the milling expenses for the month do not run over \$8,000 it would appear that the mill profits run close to \$15,000 for the past month.

MINING NOTES.

A car of ore was on the market today from the May Day of Tintic.

The Mammoth of Tintic had six cars of ore on the market today. Five cars of ore were on the market

today from the Swansea of Tintic. A. S. Reese of Sugarloaf, Mo., has just returned from a visit to Alta.

Manager R. E. McConaughy of the Sacramento is back from Chicago,

Frank L. Sizer came up from Mexico esterday and left for Butte last night. Weber County Organization Incor-Work is to be resumed at the Jessie Weimer group of claims in Deep Creek. A certificate of incorporation issued from the secretary of state's office to-day to the Grouse Creek Mining and Milling company of Ogden.

Mine accountant M. S. Wilkinson came in from the Mammoth mine last night. A car of ore was on the market to-day from the West Argent of Stock-

A. T. Moon says he knows nothing of solidation of the West Dip prop-

today with samples of quartz from the R, G, W, group,

A car of high grade ore was on the market today from the Live Yankee in American Fork canyon. The Boston and Seven Devils com-

pany of Idaho reported today with a car of copper ore. The Conklin sampler reported six cars

of ore from Tintic, one from Stockton and two from Arizona today. The Grand Gulch mine in Mojave county, Arizona, reported today with two cars of high grade copper ore,

The new smelter now being built by the American Smelting and Refining company in this valley, is to have ma-chinery capable of treating zinc ores. ham Bulletin says:

The overbauling at Last Chance mill will be about completed today.

A two-car lot of fine grade Zelnora ore was delivered at depot this week.

A lot of Neptune carbonate was delivered at the Dewey this week by Standish & Juneson Co. Col H. L. Pickett left today for the Savanic mine in Mojave county, Arizona. While away the colonel will also visit a gold property in the White Hills district.

I. A. Cammet, inventor of the cele-brated Cammet concentrating table, was in camp Tuesday. The Fortune tramway is nearly completed to the mine. Within two weeks the present method of hauling ore and concentrates to the sampler by teams will be discontinued,

A nice streak of high grade galena has been encountered in the Liberal group near the Ben Butler, in Bingham, our men started to work last week in the lower tunnel with the above results.

The Taylor-Brunton sampler reported six cars of ore from Tintic, one from Idaho and two from Bingham today. The Silver Shield of Bingham had two cars of ore on the market today. The new Cameron sinking pump is now

being put in place at the Henerice mine at Stockton. The pump can take care of 700 gallons per minute as it is in place work will be resumed. Mayor Outzen of Richfield was in

town today. He recently visited the Dalton at Marysvale, on which a few men are employed. He and Willard nyder expect to visit the Louise S. in Bingham tomorrow. The Prince of Wales, Swansea, Ohio

Ohio River, Galena, California and Genal Grant mining claims, near Alta, we been sold to the Cabin Mining ompany by Ellen S. Cash of Chicago and Clayton L. Haines of this city. The consideration is said to be \$10,000.

WHAT HIS PUPIL SAYS.

PROFESSOR J. S. PUGH, Of Littleton, N. C., Writes.

PROF. M'NAMARA, The Magnetic Healer.

Has Met With Success Elsewhere as Well as in Salt Lake City. Littleton, N. C., Aug. 29, 1900.

I take pleasure in stating that I have received instructions under Prof. J. W. McNamara in Magnetic and Hydro-pathic healing, and I deem the informa-tion and knowledge obtained of incaltion and knowledge obtained of incal-culable value to me. I would not be without the knowledge of the God-given power, as taught by him for twenty times the cost of it. His instructions in this wonderful science is so complete and so simple that anyone of ordinary intelligence can understand them. I can cheerfully recommend J. W. Mc-Namara's course of instruction to al who seek such knowledge for the good of mankind and the elevation of huof mankind and the elevation of hu-manity, for every father and mother ought to know and understand this wonderful science. I feel as though I cannot say enough in appreciation of the knowledge of the law as he explains it; it should be known from pole to pole, because he makes it so simple. I cannot say too much in behalf of his teaching. His course on healing concerning the say too much in behalf of his teaching. His course on healing concerning the science of the soul is far more than he claims for it. May God bless him in his good work to instruct those who are striving to live a higher, holler, grander life. With best wishes for your success in spreading the truths of this great science, I remain yours sincerely,

J. S. PUGH, B. S. Transition,

Why! Of course you have heard of Why! Of course you have heard of the Burlington. Everybody has, never, theless you will be surprised when you see the train, it's a wonder, and that see the frain, it's a wonder, and that dinner is immense, the meals cannot be excelled, the neatness of the napery, courteous walters, cleanliness and ery vice in general are appetizers. The improvements in track have made the Burlington almost noiseless. You can sleep in a sleeper, dine in a diner, smoke in a smoker, read in a library car and recline in a reclining chair car all under one roof. And to make this whole der one roof. And to make this whole train go the Burlington have the largest engines in the West. They are as high as a house, as fast as a whirlwind, and weigh 114 tons each. You should go over this road to see and ride behind one of those monsters.

one of those monsters.

Two trains a day from Denver to the East, The Chicago Special leaving Denver at 4:00 p. m. The Vestibuled Fiyer at 10:00 p. m. for all points East, Through sleepers daily, Ogden, Sait, Lake, Provo to Denver, Omaha and Chicago via Rio Grande Western & Burtickets at offices of connecting lines, Tickets at offices of connecting lines, Ticket Office, 79 West, Second South St, Sait Lake City.
